DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Milestone No. 6(7) marks Mason and Dixon's sixth mile west of the initial stone at the northeast corner of Maryland on their West Line. Originally, 24 monuments were set along the present Cecil/Chester and Lancaster county boundary (1 double crownstone at the corner set in 1768; 4 crownstones and 19 milestones in 1766). Of these, 3 crownstones and 17 milestones remain, No. 6(7) amongst them, at a site preliminarily surveyed in 1765.

The area here is rural, rolling open farmland. The site is about 1 mile due west of Lewisville, Pennsylvania; about 2 1/4 miles northwest of Fair Hill, Maryland; about 800' east of Little Elk Creek Road; about 700' north of Indian Trail Road; on the top of a hill in a fenced horse pasture just west of a small barn. It cannot be readily seen from the roads, but easily from closeby, all seasons, and is comparatively protected.

The monument, originally standing about 3' above ground, was reset to stand about 1 1/2' high at the time of the 1900-03 Resurvey of the Maryland-Pennsylvania boundary, and surrounded by a collar of concrete at that time. It presently stands about 1' above ground, is in place, firmly set, and in good condition though with large chips in the top corners and edges. As with all original Mason and Dixon West Line monuments: it is an embellished, squared oolitic limestone post with a low pyramidal top, and was quarried and carved in England. The stone now measures about 11 1/2" square; the letter P on the north side facing Pennsylvania and letter M facing Maryland on the south side are distinct and intact, as are most of the fluting, margins and top planes.

(see Thematic Group NR nomination form for description of original milestones and the 1900-03 Resurvey method of resetting)

~~EXPLORATION/SETTLEMENT~~ Charles Mason & Jeremiah Dixon
SURVEYORS:

STATEMENT OF SIGNIFICANCE

Milestone No. 6(7) is significant primarily as one of 111 original Mason and Dixon milestones still standing along their West Line, the boundary commonly known as the Mason-Dixon Line since Civil War times and notable for its historical impact and innovative survey methods. The site was preliminarily surveyed in 1765 and monumented the following year, reset more securely in 1902 during the course of the 1900-03 Resurvey of the Maryland-Pennsylvania boundary. Individually, and as one of 17 original milestones within the present Cecil/Chester and Lancaster county boundary, No. 6(7) is also significant locally as one of a diminishing number of objects and structures with an identifiable relationship to our colonial and Civil War heritage.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This milestone is the sixth mile marker west of the junction of the Maryland-Delaware Line. Roughly 10 inches of the milestone is above the surface and on the Pennsylvania side is the letter P, while the Maryland side has the letter M. The stone is in good condition and is in a protected location.

STATEMENT OF SIGNIFICANCE

This stone is one of many set to mark the boundary between Pennsylvania and Maryland. The initial survey was conducted in 1765. By Mason and Dixon. The survey put an end to the land squabbles of the residents of this region for often two different people would own the same land granted by different proprietors.
